

Training Course on Vegetable Cultivation Technology and Marketing Method for Small Scale Farmers 2015 completed

Training course on Vegetable Cultivation Technology and Marketing Methods for Small Scale Farmers 2015 was conducted from February 2015 at Tsukuba International Center, JICA (TBIC) and the closing ceremony was held on November 6. 12 participants from 11 countries completed the nine-month training course and gained knowledge of and learned about vegetable cultivation technologies, marketing methods, and agricultural extension know-how for small farmers. At the closing ceremony, Mr. Onuma, President of AAI gave the message: “We wish you all every success in your duties after returning home, and believe our ‘Kizuna’/friendship will not perish.”
