

Region-focused Training Course on Vegetable Production Technology for Livelihood Improvement of Small Scale Farmers 2016 completed

Region-focused Training Course on Vegetable Production Technology for Livelihood Improvement of Small Scale Farmers 2016 was conducted from February 2016 at Tsukuba International Center, JICA (TBIC) and the closing ceremony was held on November 4. 12 participants from 10 countries completed the nine-month training course. We wish participants all every success in their duties after returning home, and believe our 'Kizuna' or friendship will not perish.
