

## Region-focused Training Course on Vegetable Production Technology for Livelihood Improvement of Small Scale Farmers 2017 starts

On February 7, 2017, the 2nd opening ceremony of “Region-focused Training Course on Vegetable Production Technology for Livelihood Improvement of Small Scale Farmers” was held at the JICA Tsukuba. 10 participants in 6 countries came to Japan to attend this training course and stay in JICA Tsukuba. We have 4 female participants; the number of female participants have been increasing slowly over the last few years. We have regular participants from Afghanistan and Sri Lanka, and participants from Vietnam and Fiji rejoined after an absence of a few years. They are extension workers, and researchers. We encourage them to complete this course effectively in Japan.
